DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, 7-9, 11-22, and 24-28 are allowed.

The following is an examiner's statement of reasons for allowance: As the claims were read and interpreted in light of the specification, the prior art of record fails to specifically disclose an optical switch having an input with four outputs with mirrors positioned in a first and second extended position and a retracted position such that the various combination of positions takes an optical beam input and provides four different optical output waveguides.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
